Subject: EPA Comments RE: SGP Doc for Review (Due 3/1/2018) - Midas Gold Draft Phase 2 HCT Testing Update Report

Attachments: [EPA comments on Stibnite Phase 2 HCT Update Report\\_Eckley\\_2\\_16\\_18.docx](#)

Hi Valerie and Piper, I have uploaded Chris's comments to the sharepoint and they are also attached here. They are in a separate word doc rather than in the report itself since they were easier to capture in this format. Please let us know if you have any questions.

Also, I noticed that this was not on the task list as well as the SPLNT model task. I uploaded our comments on both, but is the task list being updated to include current deliverables?

Thanks!  
Lynne
